### **EXAMINER'S AMENDMENT**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/06/2009 has been entered.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Daniel J. Hudak, Jr. on 12/18/2009.

The application has been amended as follows:

#### **In the claims**

In claim 1, lines 12-17 have been deleted;  
line 18, "b)" has been changed to -- i) --; and  
line 21, "c)" has been changed to -- ii) --.

In claim 7, line 1, after "in the", -- i) -- has been inserted; and  
line 2 has been deleted.

In claim 51, lines 18-23 have been deleted;  
line 24, "b)" has been changed to -- i) --; and

line 27, "c)" has been changed to -- ii) --.

In claim 54, line 1, after "in the", -- i) -- has been inserted; and  
line 2 has been deleted.

Claims 62 and 65 have been canceled.

In claim 63, line 2, "b)" has been changed to -- i) --.

In claim 64, line 2, "c)" has been changed to -- ii) --.

In claim 66, line 2, "b)" has been changed to -- i) --.

In claim 67, line 2, "c)" has been changed to -- ii) --.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed over the prior art of record. None of the prior art discloses or suggests a process for preparing an aligning substrate comprising the steps of providing an aligning substrate comprising an aligning film; and bombarding at least a portion of the substrate with a plasma beam from a plasma beam source at an incident angle of greater than 0 degree to about 85 degrees thereby inducing a surface anisotropy producing an aligning direction on the bombarded portion of the aligning substrate wherein i) the plasma beam bombarded portion of the aligning substrate imparts to a liquid crystal the alignment direction having an azimuth angle of 70 to 110 degrees and a zenithal angle (pretilt angle) of 0 degree; or ii) the plasma beam bombardment includes a second bombarding step and after the first bombarding step wherein the substrate or plasma source is rotated so that in the second bombarding step, the direction of the plasma irradiation is perpendicular to irradiation of the first bombarding step, wherein the beam bombarded portion of the aligning substrate imparts to a liquid crystal the alignment direction having an azimuth angle of 90 degrees and a zenithal angle (pretilt angle) of 0 to 5 degrees.

Claims 3 and 5-22 are also allowed since they depend on claim 1.

Claim 51 is allowed because it recites similar features as those of claim 1.

Claims 53-61, 63, 64, 66 and 67 also allowed since they depend on claim 51.

The article "Plasma Treatment as a Method of In-Plane LC Alignment" (Eurodisplay 2002) cited by Applicant, discloses a process for preparing an aligning substrate by plasma beam processing based on a closed drift thruster. However, the article does not disclose the above-mentioned features i) and ii).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Tai Duong at telephone number (571) 272-2291.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
